**In the Name of Allah Most Gracious
Most Merciful**

﴿O'mankind! We created you from a single
(pair) of a male and a female, and made you
into nations and tribes, that you may know
each other, Verily the most honoured of you
in the sight of Allah is (he who is) the
most righteous of you. And Allah has full
knowledge and is well acquainted (with all
things)﴾

Publishing Conditions

Hillah Heritage Quarterly Authorized Journal receives all the original scientific researches under the Provisos below:

1. Researches or studies to be published should strictly be according to the globally- agreed- on steps and standards.
2. Being printed on A4, delivering three copies and CD having approximately 5000-10.000 words under Simplified Arabic or Times New Roman font and being pagination.
3. Delivering the Abstracts, Arabic or English, not exceeding a page, 350 words, with the research title.
4. The front page should have the title, the name of the researcher/ researchers, occupation, address, telephone number and e-mail, and taking cognizance of averting a mention of the researcher/researchers in the context.
5. Making an allusion to all sources in the endnotes, and taking cognizance of the common scientific procedures

in documentation; the title of the book, editor, publisher, publication place, version number, publication year and page number. Such is for the first mention to the meant source, but if being iterated once more, the documentation should be only as; the title of the book and the page number.

6. Submitting all the attached sources for the marginal notes, in the case of having foreign sources, there should be a bibliography apart from Arabic one, and such books and researches should be alphabetically ordered.
7. Printing all tables, pictures and portraits on attached papers, and making an allusion to their sources at the bottom of the caption, in time there should be a reference to them in the context.
8. Attaching the curriculum vitae, if the researcher cooperates with the journal for the first time, so it is to manifest whether the actual research submitted to a conference or a symposium for publication or not. there should be an indication to the sponsor of the project, scientific or nonscientific, if any.
9. For the research should never have been published be-

fore, or submitted to any means of publication.

10. In the journal do all the published ideas manifest the viewpoints of the researchers themselves; it is not necessary to come in line with the issuing vicinity, in time, the research stratification is subject to technical priorities.
11. All researches are exposed to confidential revision to state their reliability for publication. No research retrieved to researchers, whether they are approved or not; it takes the procedures below:
 - A researcher should be notified to deliver the meant research for publication in a two-week period maximally from the time of submission.
 - A researcher whose paper is approved is to be apprised of the edition chief approval and the eminent date publication.
 - With the rectifiers reconnoiters some renovations or depth, before publishing, the researchers are to be retrieved to the researchers to accomplish them for publication.
 - Notifying the researchers whose research papers are

not approved; it is not necessary to state the reasons and wherefores of the disapproval.

- Researches to published are only those given consent by experts in the field.
- A researcher bestowed a version in which the meant research published, and a financial reward of (150,000) ID.

12. Taking into consideration some points for the publication priorities, as follows:

- Research participated in conferences and adjudicated by the issuing vicinity.
- The date of research delivery to the edition chief.
- The date of research that has been renovated.
- Ramifying the scope of the research when possible.

13. Receiving research be by correspondence on the E-mail of the Journal (turathhi@gmail.com) or delivered directly to the Journal's headquarters at the following address: (Iraq, Babylon Governorate, Al-Hillah City, Al-Tuhmaziya Street, Infront of Al-Turkey Hospital, Hillah Heritage Center).

Editorial

In the name of Allah, the Compassionate, the Merciful

Oh! My GOD, gives me a chance to be alone with you, my GOD! illuminate our hearts when they see you so that our hearts can break the darkness of the light and reach to the source of the greatness and our souls go by hanging with the glory of your holiness. My prayer and my peace be upon on, the Holy Prophet and his good and pure family.

After that...

The scholars are considered alive as long as they study science among themselves, and this comes by attending the literary and scientific seminars which are usually happened by attending lot of scholars in various disciplines, they study an important issue for example.

These seminars are usually held in Ramdhan or on the first day of each lunar month, or that the person who is responsible for them choose a particular day, and it is assorted according to

the diversity of need, it may be for the study of the Holy Quran and its meanings, and what does it contains from lessons and benefits you get by divergent views, or it may be as a heritage to study the culture of the greatest forefathers, and what they have written in the various disciplines of knowledge, or it may be as jurisprudence to study the Fiqh jurisdictions in which the addressee (as required by the shar'i discourse, from the shar'i rulings, from deed and leave or choice. And the charge in the sense: to whom the letter of Sharia to understand it in accordance with the terms of commissioning) is periodically. Or it may to discuss some modern issues like the question of elections, the Parliament, the question of the jurisprudence of mobile phones from (the mobile recharge card), and others. Or it may be for a linguistic-literary, then a symmetry has been doing among who are meeting about these matters, and also to discuss the ancient and modern literary approaches, as well as the poetry and its development, and arts with their creativity and images, or it may be as a realistic need which aims to discuss the immediate matters that are usually happened in Iraq in general, and especially in Hilla, and what are the effects of those things on Hilla society.

For these and other reasons, the Hilla Heritage Center decided to re-establish these things in which Hilla Fayhaa flourished since its foundation.

The history of Hilla tells us that there were many of scientific and literary sessions where the scientific debates were took place, in addition to, a lot of scientific, literary and intellectual things are done, we can restore something from the history of our ancestors and imitate their glories, so that we do not disavow them; they are our roots, and man does not withstand hurricanes if he does not have roots.

And finally the words are not done except to mention those of virtue, the one who serves Aba Al-Fadhel, His Eminence Sayyid Ahmed Al-Safi legitimate Incharge, and Sheikh Ammar Al-Hilali, for their great efforts in order to uphold the word of truth, GOD placed them with the right. Amen Lord of the Worlds.

Thanks to Allah first and last.

Sadiq Al-Khuweildi
The Editor-in-Chief

The Editorial of the Advisory and the Editorial Boards

Among the most important Islamic scientific cities, Hillah has for four centuries been regarded as the pillar of guarding the Islamic thought from squander and loss. Thanks to its scientists and their profound faith that the whole region and the sacred cities escaped the miseries of wars and invasions that struck the region. Due to these reasons, Hillah embraced all causes of scientific integration and prosperity: schools of science and thought have spread, gathering worldwide researchers.

To revive this magnificent history, the Hillah Heritage Center has taken the initiative of this noble mission through its blessed labour to restore the works of this city's scientists through uncovering the treasures of knowledge, education, and jurisprudence of Hillah which is also known as «the city of science and scientists». The Hillah Heritage Center sets itself the task of highlighting the scientific, educational, and jurisprudent

roles of Hillah's past and present scientists.

Sustaining this huge heritage is the core responsibility of the Hillah Heritage Center which is blessed by its affiliation to Al-Abbas Holy Shrine which is, in turn, highly interested in reviving this heritage and encouraging scientific research to put emphasis on the leading role of Hillah in this respect.

The significance of this journal lies in publishing scientific researches related to the scholars of Hillah and their political, social, economic, intellectual, and historical domains, to mention but few. Thus, it is a unique opportunity for researchers and writers to publish their works in this referred journal which hopes to spread the scientific, intellectual, jurisprudent, and civilized heritage of Hillah.

Taking onto its shoulder the task of highlighting this huge heritage of Hillah, the Hillah Heritage Center has introduced this journal to the academics of universities in the middle and southern of Iraqi, instigating them to write about everything that is related to the heritage of Hillah as well as the recent scientific subjects. Consequently, Turath Al-Hillah aims at:

1. Introducing the various domains of knowledge adopted

by the scientists of Hillah, especially those which distinguished this city from other Islamic cities.

2. Publishing referred scientific researches that tackle the civilization of this governorate, particularly those which reflect the extents of its development in dealing with modern subjects like the civilized relics and archeological investigation as realized through a modern scientific vision.
3. Investigating what has not been studied yet of the rich heritage of Hillah.
4. Examining the cultural treasures and relics of Hillah.
5. Emphasizing the scientific and humanitarian status of those scientists.
6. Exploring the circumstances and conditions in which those scientists lived.
7. Encouraging researchers to enter the domain of examining scripts and ancient works.
8. Producing a comprehensive and scientific encyclopedia of Hillah scientists through research and investigations in the world Islamic libraries.

9. Advancing the scientific research that is specialized in the art of examining scripts by establishing the Scripts Examination Unit in this Center.
10. Producing abridged encyclopedias by investigating the past and present scientists, quantifying and publishing their works through compilation, examination and composition.
11. Highlighting the features of the scientific and intellectual revival of the distinguished scientists and publishing their works.

Finally, we would like to welcome researchers from the different scientific institutions, universities and research centers, inside and outside Iraq, to provide our journal with their sound researches that will later make an important foundation which will, hopefully, enrich specialists', researchers', and students' knowledge. The center is also ready to provide the researchers with various unexamined references, resources, and scripts to investigate and examine them. They are highly welcome in the Hillah Heritage Center at any time.

All praise be, first and last, to Allah, Lord of the Universe!
